2x50 Ft. Roll

Designed to help in the prevention of deck dry-rot

- Developed for contractors and home owners
- Dramatic cost reduction on deck repairs
- Saves our natural timber resources
- Protects your investment
- Doubles the life of your deck framing
- Ideal for pool and spa decking
- Self seals around nails and screws

a flashing system for deck "joist and girder" framing

Joist Jackets Coverage Chart (Avg.)

(16 inch on centers)

Deck Size	2x		4x		Deck Size	2x		4x	
	2x	4x	2x	4x		2x	4x	2x	4x
6x12	2	1			12x16	3	1		
8x12	2	1			12x20	4	1		
8x14	2	1			14x12	3	1		
10x12	2	1			14x14	4	1		
10x14	3	1			14x20	5	1		
10x16	3	1			16x20	6	2		
10x20	4	1			20x20	9	2		

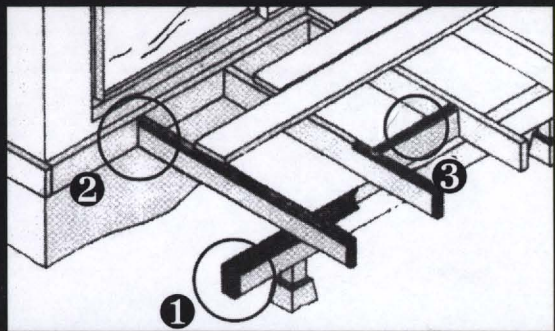

INSTRUCTION FOR USE

① Pre cut from your roll of 2x flashing, enough material to cover the top and ends of all your GIRDERS. Allow yourself some extra. Simply roll or slide flashing out over top and down ends.

Cut relief notches into sides of flashing where it folds over and down girder ends. Scissors work best for cutting flashing. Staple where needed to hold in place. For your joist "layout" use a 16 penny nail to scribe marks on 2x flashing.

② Repeat step number one for flashing your deck JOISTS. Start at ledger board or nearest point to house and roll out to and over ends. Staple where needed to hold in place.

③ Now that your girders and joists are covered with flashing, frame in all required BLOCKING and flash these members also. Installation of your J.J. flashing system is now complete! Congratulations on your purchase of J.J. Flashing! Relax, and enjoy many, many years of worry free protection!

LIMITATION OF LIABILITY:

Under no circumstances is JJ Partners Inc responsible for any damages beyond the price of the goods purchased. JJ Partners Inc is not liable for consequential, incidents/ or punitive damages. The buyer assumes all risks associated from the use of this material, either singularly or in conjunction with other substances.
